

Food Safety Training

Food Safety Is Good Business

Whether you are new to food safety concepts, thinking about having a third-party audit, or want to feed your local community through the NM Grown Approved Supplier Program, this Tiered training program will get you where you need to go. You will leave Tier 1 with a basic understanding of what “Good Agricultural Practices” (GAP) look like on a farm, and what your next steps are to improve food safety in your own operation. The Tier 1 workshop will ready you for Tier 2 and Tier 3 training where you will create a custom risk assessment or food safety plan for your farm. Ultimately, Tier 2 will prepare you for a third-party audit or produce safety rule compliance. **Our trainings are presented by local trainers and extension agents that offer technical assistance every step of the way.**
